CHICOPEE

CITY REJOICES AT CARS' APPEARANCE

Residents Have Been Put to Great Inconvenience by Tieup.

SCHOOLS HAMPERED

Jitney Service Wholly Inadequate to Needs of Pupils.

The resumption of trolly service between this city and Holyoke was welcomed yesterday. Residents of Williamansett, Fairview and Aldenville, the Center and Falls, have been inconvenienced by the Holyoke strike, which has been in force for the past 14 days, and were anxious for a quick settlement. Residents of this city, who are employed in Holyoke have been traveling by railroad and jitneys at a great loss of time and money. The jitney service on the Grattan and Chicopee Streets lines was not any too good. There were not half enough jitneys to accommodate the large number of people going back and forth and when a jitney did come along the people were hanging on the sides.

The Chicopee School Department, which has been practically helpless as far as the transportation for its pupils was concerned during the tieup, was jubilant yesterday and Supt. Gray said that he has been relieved of a great problem. No attempt has yet been made by Mr. Gray to estimate the total enrolment in all the schools because of the fact that many of the children living in the outlying districts did not attend school. Now that the strike is over and all the children will return to school an accurate estimate can be made and some provision adopted for the crowded conditions in many of the schools. The School Department this year, however, predicts that there will be no trouble in finding room for the pupils.

Many of the teachers who also reside in the outlying sections were pleased at the resumption of the trolly service. They have resorted to the jitney service and had to leave their homes much earlier than usual in order to reach their schools in time. The high school was hit the hardest, as students attend from all sections of the city. Conditions in this city are different from many. It is widely scattered and Mr. Gray says that it is practically dependent on street railway service to get its pupils to the schools. The employment of jitneys and busses has been inadequate fro the transportation of the pupils on account of the large number to be conveyed.

Many of the housekeepers of Williamansett, Fairview and Aldenville were ehighly elated yesterday when they saw the cars running. They do much of their shopping in Holyoke and for the past 14 days have been put to a great deal of inconvenience.

The Hampden County Fair Association was glad to see the strike over, as next Thursday, Friday and Saturday there will be big doings at the Williamansett park. On Saturday there will be a large firemen's muster in which veteran firemen from all the nearby cities and towns will take part. The first two days there will be athletic sports and horse racing.

FIREMEN'S BALL.

president and founder of the A. G. Spalding & Bros. Manufacturing Company of this city, who died in San Diego, Cal., Thursday, the officials of the company shut down the plant yesterday noon, and it will resume operations Monday morning. Much sorrow and regret was expressed at the plant when news of his death reached the city. He has made many visits to this city and inspected the local plant many times. He was well liked by all his subordinates and employes and made many warm friends. Flags on the plant were at half staff.

Struck by Auto.

Michael Pas of 20 Park Street was struck by an automobile driven by Robert P. Folsom, 52 High Street, Springfield, last night at 6.20 o'clock in Center Street. The boy started to cross the street in front of the machine. He sustained injuries to the right ankle, with possible fracture. An X-ray will be taken this morning. He was attended by Dr. J. H. C.
